About Us

Mr. Anil L. Deole started M/s Delight Bulb Industry in 1983. His endeavors made him the proud promoter of the Company. His acumen and thorough desire to establish his own brand made this Company a brand building Company. The first few years went through research and development, afterword the real fruits of success tested by Delight.

Since inception the Company had grown steadily and the core influencing area is the customer focus. Mr. Anil Deole spearheaded this Industry in such a way that presently it is having its strong footprints in Automobile Industry. Management of the Company is from varied areas of business such as Economics, Management, Finance, Production and Marketing.

We endeavor to provide exceptional value to our customers. We constantly innovate in order to improve our services. The Company had made its journey with innovations since 1983 and also adapted in the changing technology by spending an extensive amount of funds on Research and Development activities. Company having fully automatic production plant imported from Taiwan. Present capacity is 20,000 bulbs per day. More than 110 products are there in production line of Delight.

The Company having strong distributors network in 10 states of India. We are also having tie-ups with some of the giant logistic companies for supply of Auto Bulbs.

Company's vision is to acquire and maintain global leadership position in chosen areas of business and to continuously create new opportunities for growth in strategic business.

The Company is marching towards its mission to manufacture and supply the products to the highest standard of quality whilst being recognized for outstanding customer service.
